

TOWARDS **INCREASING**
THE COMPETITIVENESS
OF **TELANGANA INDUSTRY**

Telangana Industrialists Welfare Federation

Historic Background

Telangana Industrialists Federation

Its Genesis

The past three years, TIF has diligently worked both for the statehood movement and also in resolution of problems faced by the Telangana industrialists. It has actively participated in the Telangana Joint Action Committee (TJAC) drive for a Telangana state and has lent creditable support to the movement at all stages viz providing organizational & logistical support for its numerous activities and gatherings. TIF, on its own, has initiated public meetings, conducted seminars and cultural meets to spread awareness amongst industrialists, workers and the general public.

Telangana Industrialists Federation (TIF) was formed to correct many anomalies and to rejuvenate the entrepreneurial culture amongst the Telangana citizens.

Proposed

Committees

- Industrial Development Infrastructure Committee
- Policy Guidance Committee
- Foreign Trade Cell
- Power, Non conventional energy & Alternate energy committee
- Entrepreneurship Development Cell
- Credit & Investment Committee
- Sick Units Revival Committee
- Agriculture, Food processing, Agro based & Allied Products Committee
- Crisis Management Group
- Technology & Knowledge Sharing Cell

Telangana region as part of the princely state of Hyderabad had witnessed impressive growth. Growth & development continued in the early years of the post-independence phase also, richly evidenced by the progress of many industries like Singareni Collieries, DBR Mills, VST, Azamjahi Mills, Praga Tools, Allwyn, VST, Sirpur Paper Mills, Hyderabad Asbestos, Sirsilk, Nizam Sugar Factory etc., several PSUs employing thousands of people were closed on insubstantial grounds.

After the formation of Andhra Pradesh in 1956, the industrial development in Telangana started declining due to the discriminatory policies of the rulers. Telangana Industrialists & entrepreneurs were deprived of access to correct information and policies such as industrial policies, incentives, schemes, by partisan officials in various industry related departments such as APSFC, APIDC, APIIC, DIC etc., A surreptitious campaign that telangana people are lethargic and are incapable of piloting businesses was instigated and launched.

Telangana Industrialists Federation

Aims & Objectives

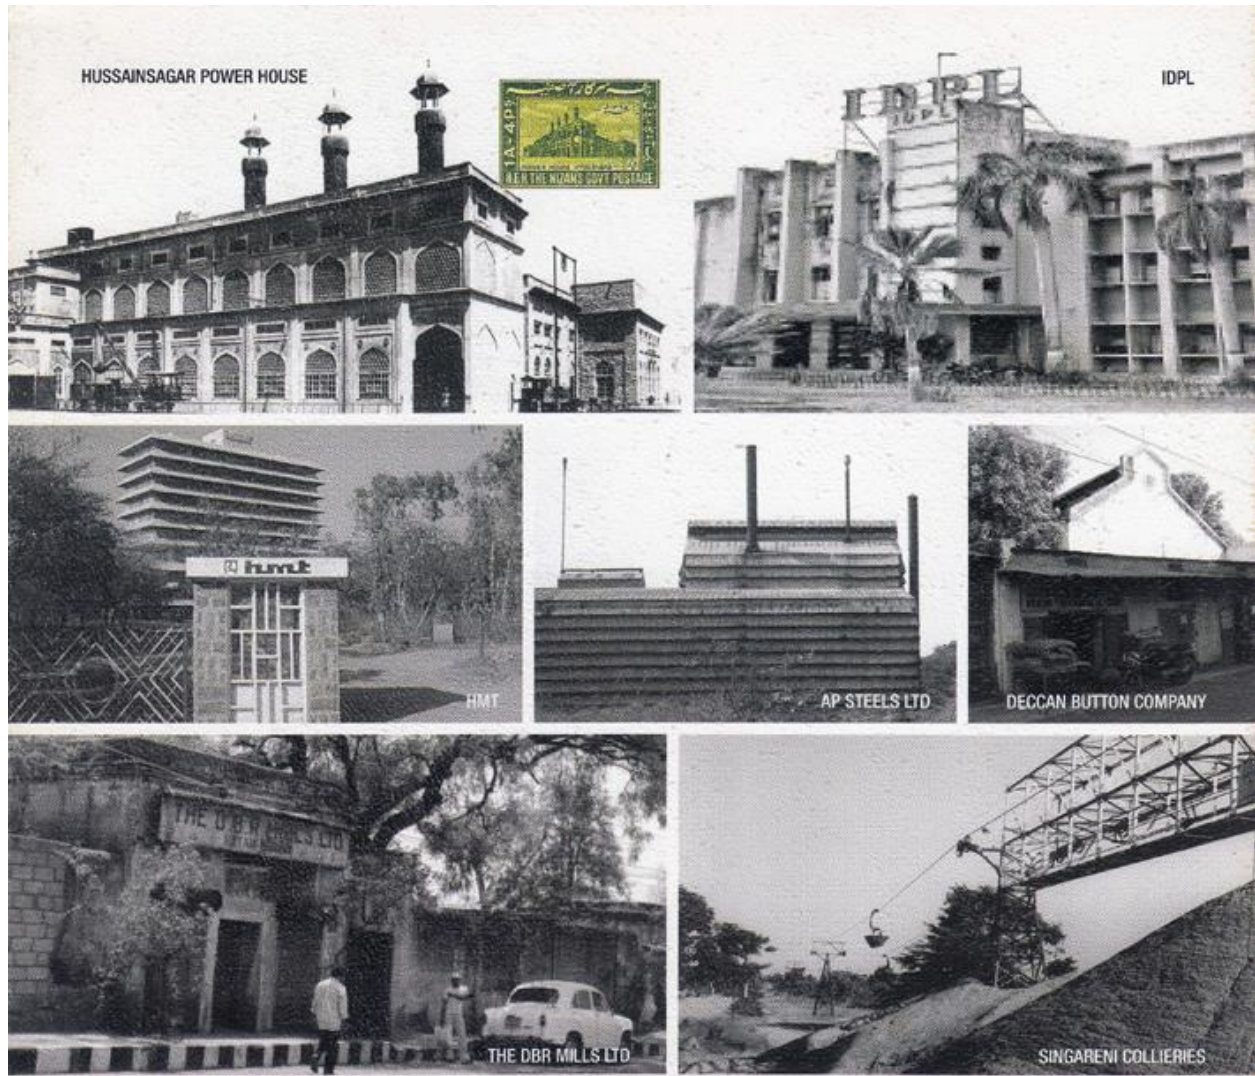

TIF aims to take up a larger role in "increasing the competitiveness of Telangana industries". TIF plans to fulfill its goal by clearly defining its objectives, initiating each of them and focussing on them quantitatively.

Industrialists today face several challenges including access to infrastructure, credit, marketing & knowledge inputs. Strategically, the following drivers shall be initiated:

- Lobby with Government on infrastructure development
- Create a framework for dissemination of knowledge and transfer of technology by leveraging on the rich experience of successful entrepreneurs.
- Generate facilities for sharing raw materials purchases, technology collaboration & marketing.
- Propagation of information on technology, policies, etc.,
- Accelerate the process of setting up ITIs and Polytechnics to create skilled workforce.

As security is essential to the survival of any industry, TIF shall work with members to resolve any unfortunate problems created by anti-social elements or organized criminal/extremist groups. A dedicated Crisis Management Group shall be setup for this purpose.

An Advisory Board consisting of eminent personalities shall guide TIF in its activities and provide advice on various matters from time to time. Sick industries could be a source of bane for telangana. TIF shall work actively to ensure the revival of sick units by providing necessary retraining.

Temples of modern India...
Victims of Neglect?
